

Nexus Aquasciences continues as the international industry partner in the Australian Research Council Research Hub for Commercial Development of Rock Lobster Culture Systems.

The hub, based at the IMAS Taroona laboratories, undertakes research in partnership with

Research Hub Director, Associate Professor Stephen Battaglene, said that the pilot lobster ~~tested by the~~
~~University of Tasmania in partnership with the International Seafood Centre (ISC) and the~~
~~Department of Primary Industries and Fisheries (DPIAF) will be a significant step towards~~

~~the commercialisation of rock lobster aquaculture in Tasmania.~~
of Tasmania” he said.

~~“We are also exploring a number of options for growing lobsters in Australia including pond~~
~~approaches like stock enhancement.”~~

**For more information or to organise an interview with Associate Professor
Battaglene contact IMAS Media Officer Lana Best on 0417 978 025 or
